VOYAGES

*The Ocean's Journey*

# The Ocean's Journey

See the world – and experience the sea – in a different way with Tradewind Voyages.

Our philosophy is all about the ocean's journey. We let Mother Nature be our compass and the prevailing winds and currents define our course. Our tall ship is powered by the billowing sails as much as possible and, as we follow the sun, you'll discover a new-found freedom and time to connect with the beauty of the natural world.

All we ask is a sense of adventure and a passion for the sea. We'll then take you on a maritime experience you'll never forget.

# Golden Horizon

Golden Horizon is the largest sailing ship in the world.

A grand ship deserves unique adventures – and that’s where we are different. Our journeys harness the power of nature whenever possible, letting the wind and currents guide our course.

Our five-masted barque is based on France II, a legendary square-rigged tall ship built in 1913. We’ve been inspired by history’s magnificent Tea Clippers and Cape Horners, and added our own contemporary twist. First-class service, top-notch dining and elegant cabins, all with a sea view are all part of the luxurious experience on board.

We offer high levels of safety when it comes to social distancing, with open decks, small guest numbers and visits to remote locations. So, if the ocean is calling, let us take you on the sailing adventure of a lifetime.

# On Board

Stand on the expansive wooden deck and feel the momentum of the ship, enjoying the drama as the wind fills the sails and the rigging strains. Gaze out to the horizon where sunlight catches the rippling waves and relish the excitement that comes with spotting dolphins riding the bow wave and leaping playfully from the water.

We want you to feel connected to the ocean, so all guest cabins on board Golden Horizon have a sea view and many have their own private balcony. You can start the day with a yoga or fitness class on the Upper Deck, work out in the gym or unwind with a good book in the library. We even have a spa and hammam on board for an indulgent treatment.

Our marina platform opening at the stern offers the opportunity for kayaking, swimming and snorkelling. You can also borrow one of our sailing dinghies to navigate the clear water and discover quiet bays. During your voyage, enjoy beach days and surprise stops, as well as iced drinks around the ship's swimming pools.

There's time to learn, too. We play host to insightful experts who can teach you about maritime history, astronomy and geography, and our outstanding team is on hand to arrange optional activities, from wine tasting to watching a movie under the stars.

We want your on board experience to be first-class, without being too formal. So, relax as you enjoy dinner in the elegant dining room, listening to our pianist and singer, or head up on deck for a more casual meal watching the sunset. Get a taste of the local region with shows from talented local performers and end perfect days at Debeljak's, our premium on board bar serving some of the world's finest gins and whisky.

If your cabin has a balcony, you can enjoy lunch or dinner – and a front-row view of the ocean – in private. ## A Day Onboard Golden Horizon

An example of how you could enjoy your day.

### Morning

Pick up the daily programme and see what the day has in store. You can select a quiz to play whilst having breakfast or head to the Upper Deck for your first ever t'ai chi class. When in dock (or at anchor) the marina opens if you want to go sailing, or step ashore to explore markets and museums.

Some days it will feel like you have the deck all to yourself. Spend time by the pool in the sunshine or venture below deck for a soothing massage in the spa.

### Afternoon

Order a light lunch from either the Horizon Bar or Dining Room, or try a tasty pasta salad bowl on the Upper Deck. You can spend more time relaxing by the pool under a cloudless sky or get active and join one of the many fitness classes on offer.

There's time for a sauna and a hammam at sea, or a lazy afternoon watching a movie. You can also retreat to a sunbed (or the library) to enjoy a good book and the chance of an afternoon snooze.

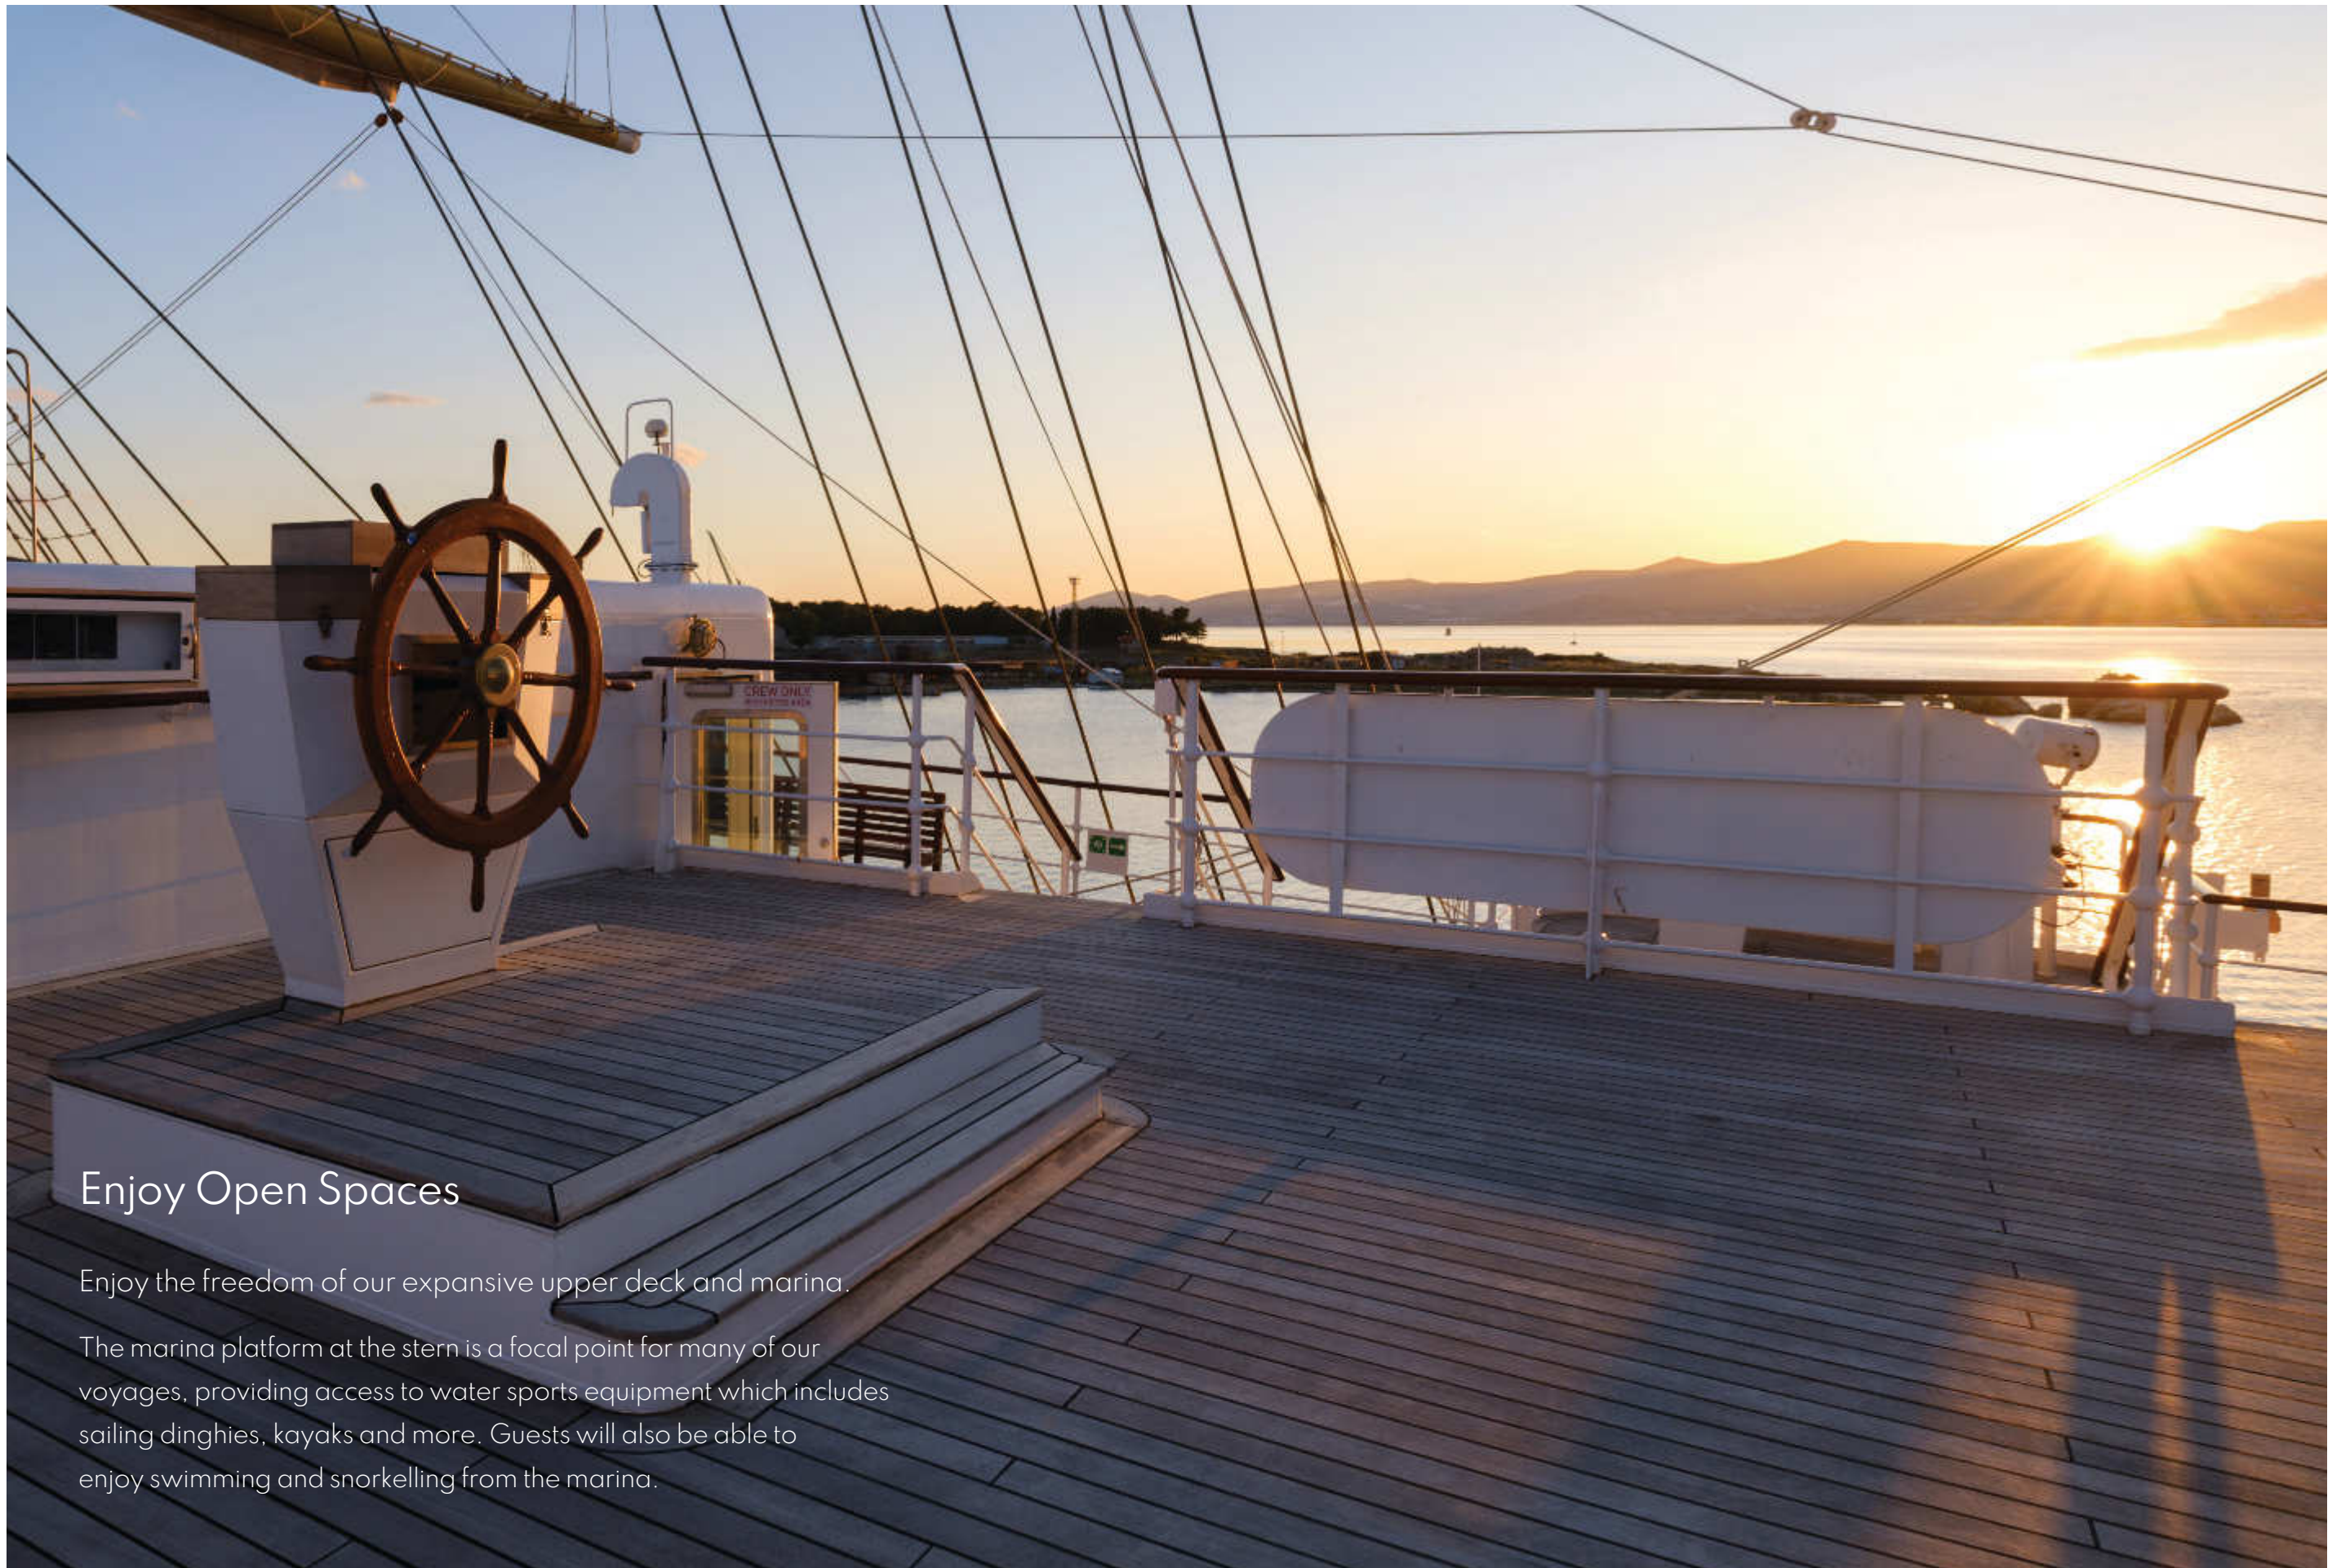

### Evening

Kick off the evening with cocktail hour, listening to dramatic music while the sails billow and lift the ship from the sea just a little.

Have a drink at the Piano Bar and decide where the evening will take you – watching the game show at the Horizon Bar, perhaps, or chatting to new friends over a whisky at Debeljak's Bar. You can enjoy a delicious meal in the Dining Room, dance to the sound of our talented musicians or opt for a night under the stars, learning about

the night sky during a star-gazing lecture. If you'd like to pre-order breakfast to be delivered to your cabin in the morning. We highly recommend tucking into Eggs Benedict while soaking up the ocean views from your balcony.

## Enjoy Open Spaces

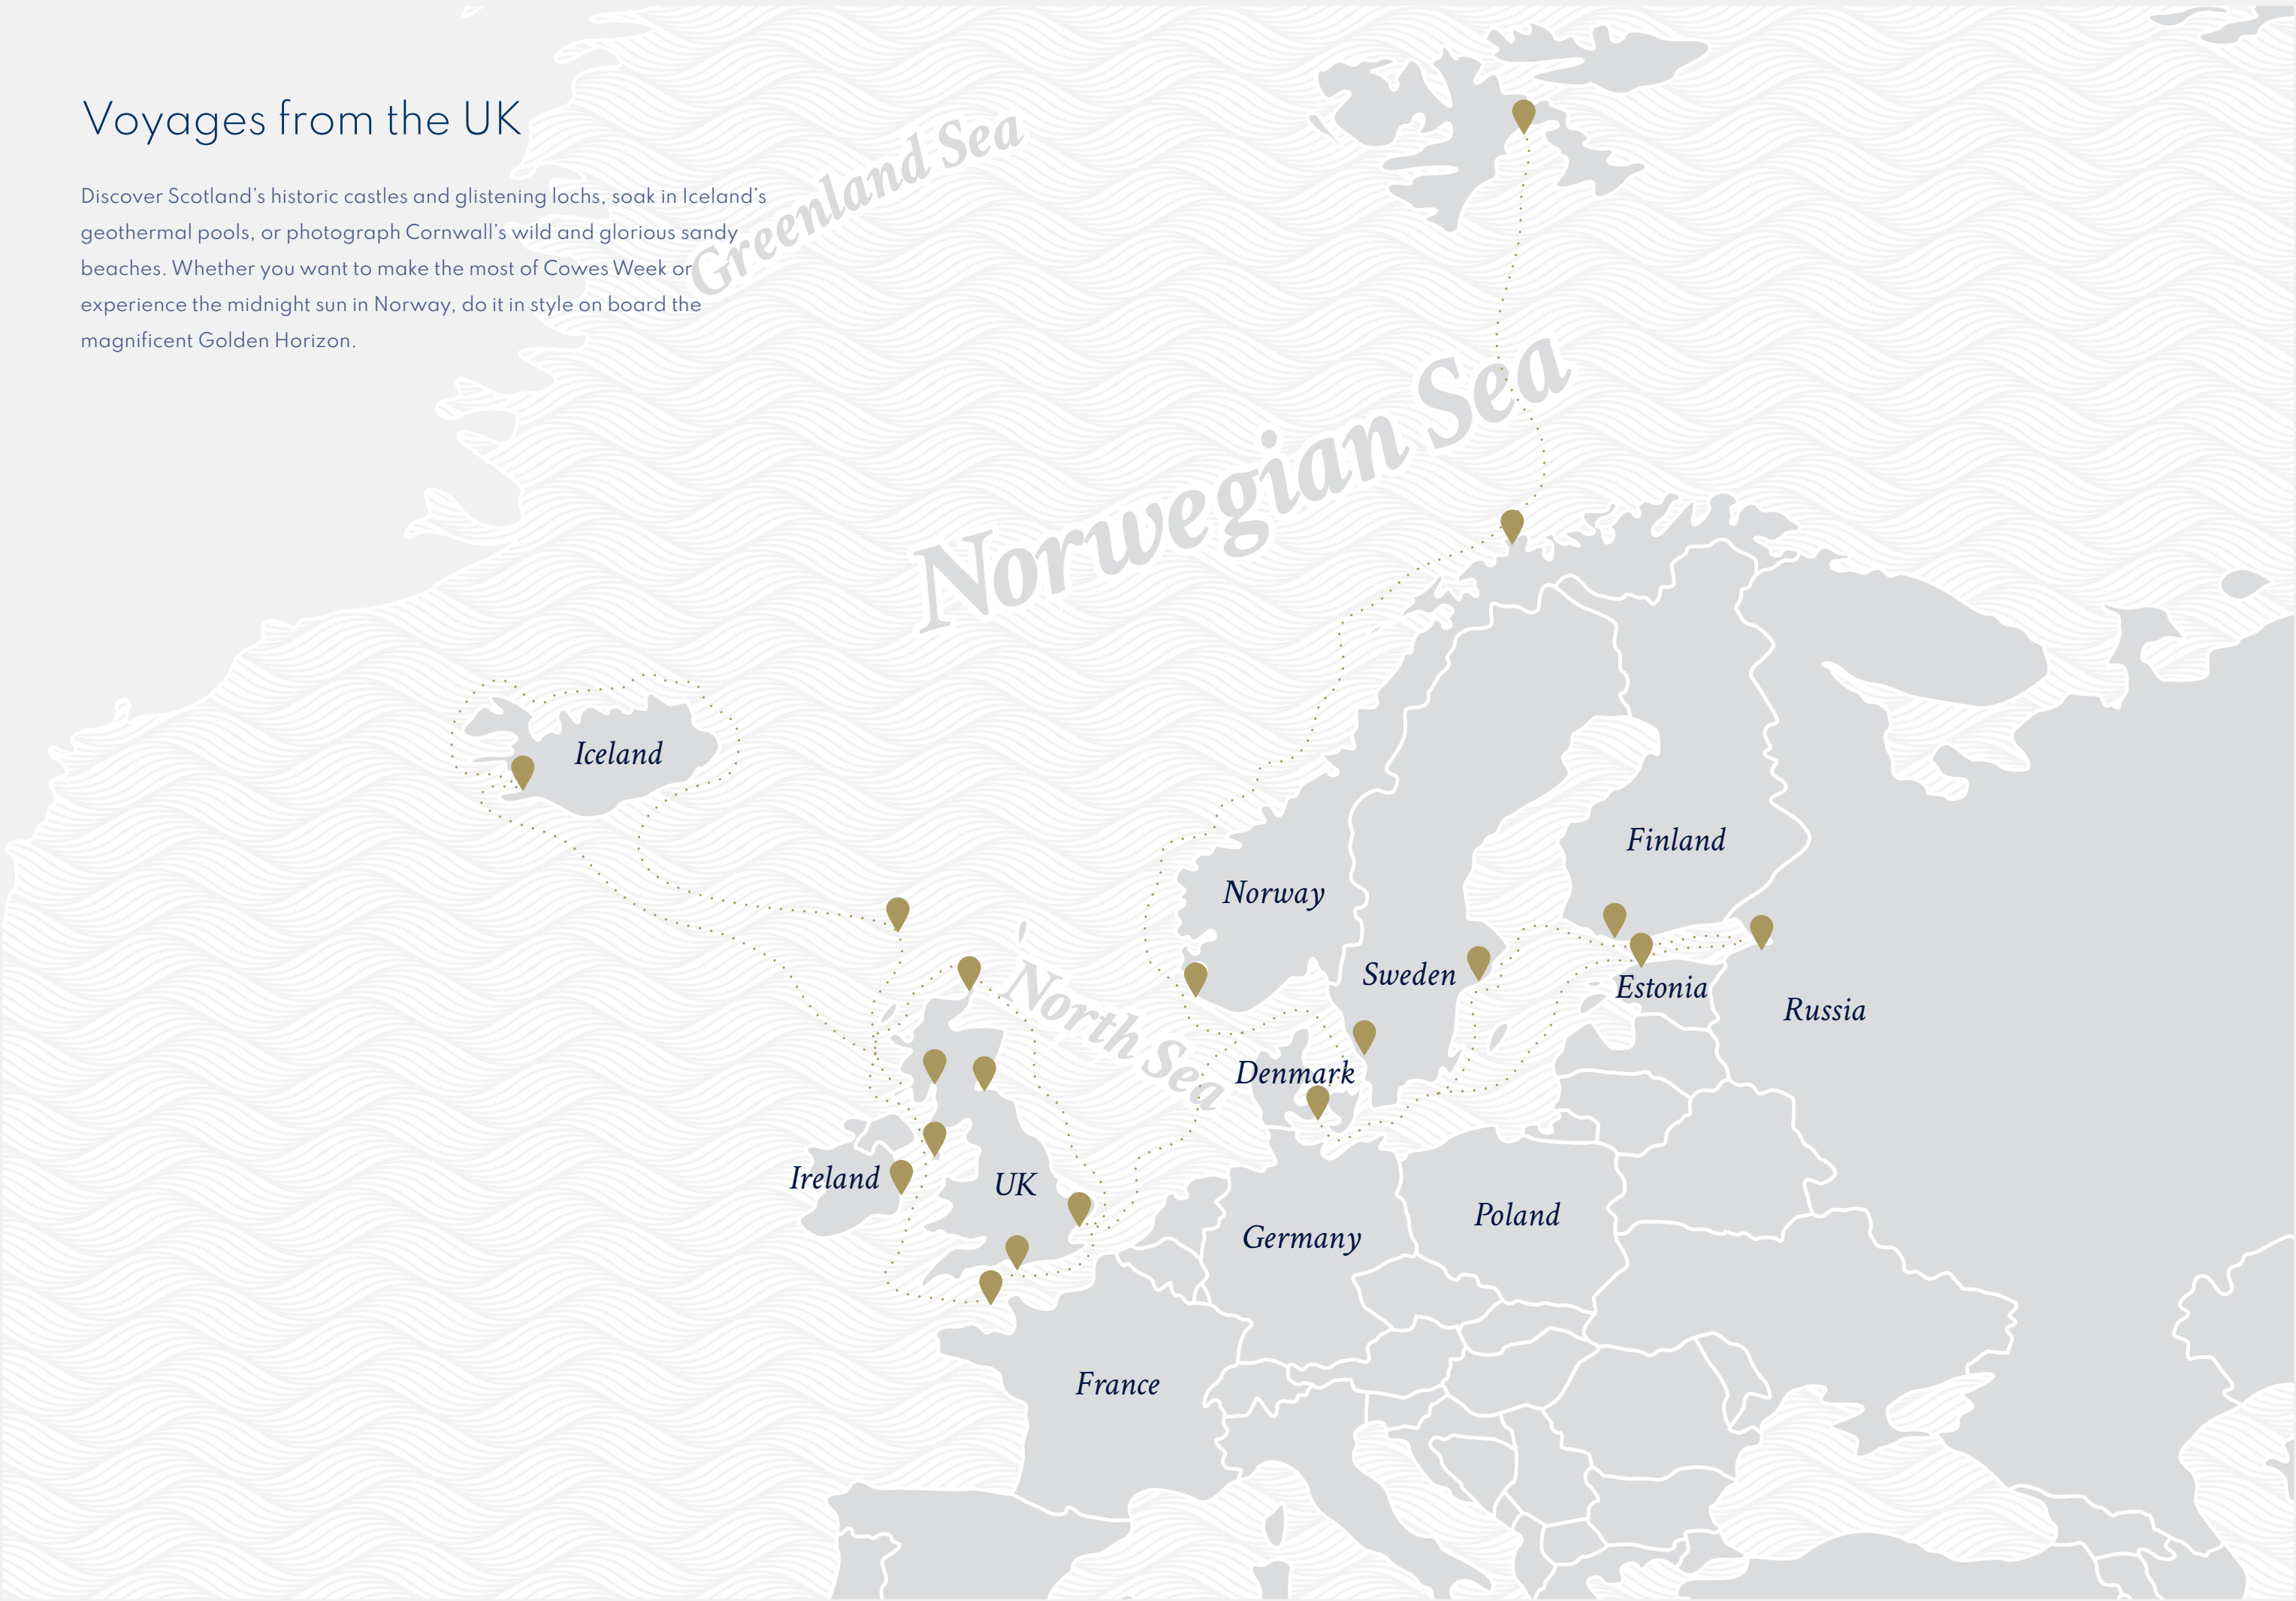

Enjoy the freedom of our expansive upper deck and marina.

The marina platform at the stern is a focal point for many of our voyages, providing access to water sports equipment which includes sailing dinghies, kayaks and more. Guests will also be able to enjoy swimming and snorkelling from the marina.

## Shore Experiences

### UK & Ireland

#### *Invergordon*

The small town of Invergordon is a departure point for one of Scotland's most famous spots. There's more to Loch Ness than its fabled monster: cruise out on the deep waters and you'll fall for its wild natural beauty and iconic lakeside attractions. Look out for Urquhart Castle, which is perched on a dramatic rocky point at the edge of the loch. This 1,000-year-old medieval fortress has a fascinating history and was eventually blown up in 1692. Take time to wander around the ruins, then head inside the excellent visitor centre to learn more. During our sailing, another shore excursion available from Invergordon is a visit to the stunning Rogie Falls on the Blackwater River.

#### *Belfast*

Northern Ireland's capital offers a great mix of sightseeing. In the city, there's Belfast Castle, the city hall and the botanical gardens, as well as lots of great restaurants and pubs. Outside of the city, you can explore Game of Thrones filming locations and head out to the impressive Giant's Causeway to follow in the footsteps of giants. This surreal UNESCO World Heritage Site is made up of 40,000 huge basalt columns that rise out of the sea – legend has it that it was created by an Irish giant during a fight with a rival giant from Scotland.

#### *St. Ives*

Journey to the picture-perfect St Ives, which is nestled on the north Cornish coast. The romantic coastal scenery here has lured generations of artists since the 1800's, seduced by the clarity of light and undeniable natural beauty. Wander down picturesque streets that tumble down to the sheltered harbour, browse the boutique shops or feel the sand between your toes on one of the award-winning beaches fringing the town. For those who seek culture, perhaps visit one of the several acclaimed galleries, including the world-renowned Tate St. Ives which is set overlooking beautiful Porthmeor beach.

## Iceland

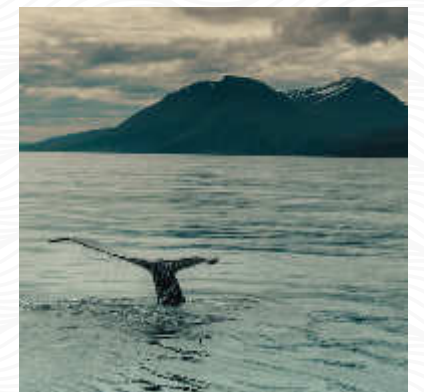

#### *Reykjavik*

Iceland's capital is the departure point for many of the island's attractions. The Blue Lagoon lies just outside of the city but feels like a world away thanks to its milky-blue geothermal waters, where you can lather yourself in mineral-rich mud for the ultimate natural spa day. Trips to Iceland's Golden Circle also leave from Reykjavik, taking in the natural wonders of Gullfoss waterfall, Thingvellir National Park and the Geysir. For something a little different, snorkel between two tectonic plates in Silfra.

#### *Akureyri*

Akureyri in northern Iceland is a top whale-watching spot and a natural adventure playground. Spot humpback, fin, blue, minke and sei whales, go rafting along the West Glacier River's gentle rapids against a rugged canyon backdrop, or ride a sturdy Icelandic horse out into the wilderness. If that all sounds too energetic, head to the glorious natural baths (a less-crowded alternative to the Blue Lagoon) to soak in the hot mineral water pools.

#### *Seydisfjordur*

The laid-back town of Seydisfjordur is located between two mountain peaks in the east of Iceland. It's known for its rocky beaches, puffin colony and traditional 19th-century timber houses that line the lagoon. Excursions here include hiking to Vestdalur Valley finding a series of striking waterfalls, and a visit to Skálanes to explore the 3,000-acre nature reserve.

# Norway

## Bergen

Pretty Bergen lies on Norway's southwestern coast, surrounded by fjords and mountains. One of its main attractions is the UNESCO World Heritage Site of Bryggen at the heart of the city, where colourful wooden houses front the water. There's a great fish market where you can sample the catch of the day and then wash it down with ice-cold drinks at the ice bar. Norwegian composer, Edvard Grieg, lived in Bergen, and you can visit his home on a guided tour. Or, for views of the city from above, take the funicular to the top of Mount Floyen.

## Longyearbyen

Experience the midnight sun in the 'The Long Year Town' of Norway's Svalbard archipelago. In summer, the ice melts enough for ships to navigate the still icy waters, giving you a chance to view the wildlife – and the wild landscape. Another of our favourite Svalbard adventures is a boat adventure to 'bird mountain' with its steep dramatic walls that lean out into the open water.

## Andenes

If you only pick one thing to do in the small fishing village of Andenes, make it whale watching. In the summer months, whale safaris head out on the search for sperm whales, pilot whales and magnificent orcas, with excellent success rates. There are also year-round bird-watching opportunities – look out for white-tailed eagles, gannets and puffins at the Bleiksøy bird colony.

# The Baltics

## St Petersburg

St Petersburg is packed with historical sights. Make the most of your time here by taking the 'Grand Tour' – a comprehensive two-day excursion that visits the city's most iconic spots. Tours typically include the remarkable onion-domed Church of the Saviour on Spilled Blood, the huge Winter Palace (now the State Hermitage Museum) and ornate St Isaac's Cathedral, as well as the Peter & Paul Fortress and Fabergé Museum. We'll stay overnight in port, which means there's the chance to spend an evening at the ballet.

## Copenhagen

Cool and colourful Copenhagen has a strong royal history. Amalienborg Palace is still home to the Danish Royal Family – two of the four rococo palaces are open to visitors and each day at 12pm you can watch the changing of the guards. 400-year-old Rosenborg Castle showcases more royal regalia, including the coronation throne and crown jewels. Enjoy a traditional Danish pastry during your time here and take the chance to explore the city by bike.

## Stockholm

Take a walking tour or bike ride around Sweden's capital to learn about its rich history. Explore medieval Gamla Stan's bright buildings and cobbled streets, visit the Royal Dramatic Theatre (founded in 1788) and see a preserved 17th-century ship at the Vasa Museum.
